Brief Description of Instructional Program

Lakewood High School mission is "All Students Will Graduate College or Career-Ready." Our emphasis is on all aspects of students' lives as we look at not only academics, but also emotional, physical, and social needs. Lakewood High School provides an environment for student growth and preparation to compete with others in the global workplace. Our philosophy continues to be "A Culture of C.A.R.I.N.G.," which reflects our never ending aspiration to do our best in academics and extracurricular activities.

Lakewood High School is committed to providing each and every student with a quality education. The school offers a comprehensive extracurricular program so that students have the opportunity to develop and enhance special talents and skills. Positive relationships between students and staff are developed and nurtured

to provide additional support and encouragement to further each student's development.

Students, staff, parents and the community must work together for a school to achieve greatness. As we seek to establish "A Culture of C.A.R.I.N.G.," the support of parents and the community remains vital to our success in reaching our goals and preparing students for the future. We encourage everyone to remember what each letter in C.A.R.I.N.G. means: promoting great Character, positive Actions, establishing Relationships, Instructional rigor, Nothing but excellence, and good to Great. The Lakewood staff cares about every student and strives to prepare them for the 21st Century global economy.

John Michalik, Principal
